August 2006

NHANES 2003–2004 Data Documentation

Questionnaire Section: Household Interview

Miscellaneous Pain (MPQ_C)

Years of Coverage: 2003–2004

First Published: August 2006

Last Revised: N/A

Component Description

The Miscellaneous Pain section (MPQ_C) provides personal interview data on several pain topics.

Eligible Sample

All survey participants 20 or more years of age were eligible.

Interview Setting and Mode of Administration

The questions were asked in the household interview. The survey questionnaire can be found at the NHANES website.

Data Processing and Editing

Please review the file codebook for a listing of the regions of the body that were specifically mentioned during data collection for MPQ050. Responses to MPQ040 (How many weeks or months, in the past year did you have joint symptoms due to an injury?) were reduced to a single time unit (weeks).

Analytic Notes

Since the Miscellaneous Pain questions were asked in the home interview, the interview sample weights may be used in their analysis. However, if the data is joined with data from the Mobile Examination Center (MEC), the MEC sample weights should be used.

Please refer to the Analytic Guidelines, on the NHANES website, for further details on the use of sample weights and other analytic issues.
